

EMERGENCY SYSTEM

VACUUM FIXATION MATTRESSES

These ensure perfect fixation of the whole body which is absolutely essential in case of back or pelvis injury, so that a patient is transported to hospital like being in a plaster cast.

ADVANTAGES

- Suit any patient body shape
- Great thermal insulation
- X-ray porous
- Easy and fast serviceability without usage of the outside pressure
- Stable, durable and compact construction
- Washable and disinfectable
- Can be used in wide range of temperatures
- Maximum safety and comfort for a patient
- Multiple uses save a lot of money
- They are very light
